"The Best Authority, Worcester's Large Dictionary."
—Hon. Charles Sumner.

TESTIMONY FROM HIGH AUTHORITY.

LIBRARY OF CONGRESS,
Washington, Feb. 17, 1875.

Gentlemen:—The report having been made that Webster's English Dictionary is adopted as the standard by national officers, to the exclusion of Worcester's, I take occasion to say that so far as the Library of Congress is concerned, Webster has never been followed in orthography in printing its catalogues, reports, or any other documents. On the contrary, wherever proofs from the Congressional Printing Office embody the innovations upon English orthography which Webster introduced, they are invariably returned with corrections restoring the established spelling, as represented by Worcester and the usage of all great English writers.
Very Respectfully,
A. R. SPOFFORD,
Librarian of Congress.

THE HARTFORD
ACCIDENT
Insurance Company.
Cash Capital, $500,000.
R. D. HUBBARD, Pres. GEO. B. LESTER, Sec.
Insures against all forms of bodily injury induced by accidental means: such as dislocations, fractures, broken bones, ruptured tendons, bruises, cuts, stabs, gunshot wounds, crushing or mangling, burns and scalds, bites of mad dogs or serpents, unprovoked assaults by robbers or murderers, stroke of lightning or drowning &c.
The records of the years are filled with such accidents, and no doubt will be, so long as human carelessness exists. We are beset with them, from the cradle to the grave, and there is scarcely an individual refer, within the sphere of his own family or acquaintance, to some accident in which the indemnity offered by this company would have been a blessing worth much more than its cost.
Policies issued for long or short terms providing for weekly payments, in case of disability, and for the payment of the whole sum, in case of death.
The only company in the country that devotes itself wholly to accident insurance. A yearly policy covers accidents while travelling, while about one's business, while in the street, at home or abroad. The premium on each $1,000 is so small that every one able to secure a policy without the slightest embarrassment. For full and complete particulars inquire of I. D. DAVIS, agent for Newport and vicinity.

Look at This.
The last ten years have been very disastrous to insurance companies in the United States. More than sixty have failed altogether, and many others have reduced their capital stock or otherwise became greatly weakened. But there are a few that by prudent management and wise liberality on the part of stock holders are much stronger now then ever. Consider the following figures taken from the reports of the Insurance commissioner of the state of New York, for 1864 and 1874.

ÆTNA of Hartford, Assets in 1864.	$3,800,139. 03
" " " 1874.	5,845,802. 06
Increase of assets in ten years	2,045,662. 10
INSURANCE of North America, 1864.	$1,715,171. 78
" " " 1874.	3,263,000. 00
Increase of assets in ten years,	1,547,828. 22
ROYAL of Liverpool, (American Funds) Assets in 1864.	$1,827,981. 0
" in 1874.	3,073,453. 8
Increase in ten years,	1,245,499. 78
HARTFORD, of Hartford, Assets, 1864.	$1,575,920. 48
" " " 1874.	2,415,681. 51
Increase in ten years,	839,761. 03

This wonderful growth during a term of unparalleled disaster is not the result of good fortune merely, for these companies have been the heaviest losers in Portland, Chicago, Boston and other cities, and have paid out millions of dollars each year. The facts commend themselves to persons who want RELIABLE insurance in these days of trial. A policy in such companies is worth twice as much as one in any of the untried institutions that are springing up on every hand. The rate is the same.
Dwelling houses and their contents insured for five years at very low prices—lower in fact than is charged by many of the Mutuals where the insured is liable to heavy assessments in case of a large fire in any of our larger towns.
Policies written on all classes of property, and losses paid at this agency.
AUGUSTUS D. DAVIS, Agt.

Newport Daily News.

FRIDAY, APRIL 9, 1875.

PARTING.

From Good Words.

To silent figures in a silent land,
Clasping each other closely while they may;
No need for words, their yearning eyes can tell
All that those sorrow-silent lips would say.

Ay! clasp and cling thus closely while ye may,
And say farewell with those despairing eyes,
Day dies, and one of you, ere morn, must pass
To that still land which heeds nor tears nor cries.

O soul! whose spirit wings are trembling now
To bear thee far from loving human eyes,
Parting seemed bitter, but thine eyes have caught
The radiant home-light from beyond the skies.

And glorious words of welcome strangely blend
With those of parting, till the bitter pain
Fades like a shadow from the dying brow,
And God's own light and peace shine there again.

But to that stricken heart which still must live,
And learn to tread alone the world's steep road,
No angel-voice has come to whisper peace,
No God sent strength to carry its weary load.

No light! no peace! no tenderness of grief,
Reigns in that weary, sorrow-stricken heart,
Nought but the feeling, "Thou and I are one,
Not Death itself hath power to bid us part."

But as a bitter wind on opening flowers
Checks their fair promise, and the blossoms die,
A sudden shadow fell, Hope passed away,
And the lone heart sent forth a bitter cry.

"Oh! if our Father take thee to Himself,
He, who is love, will also bid me come!
My God! my God! my heart would plead with Thee,
But language faileth me, my heart is dumb."

Fear not! thy Father understands full well
The silent pleading of thine anguished heart,
His Father heart is grieving for thy grief,
Oh! trust Him still, although He bids you part.

A HISTORY OF THE FAN.—A curious little volume has just appeared, giving the history of fans among all nations and at all periods. The author, M. Blondel, who has been able to examine many rare collections, states that it first came from the east, where it is always accompanied by a fly-flap and parasol. The former is made of a tail of the Thibetian buffalo, white as snow, and of which the extremity is a tuft of hair in the form of a plume. Fans of feathers, recently in fashion, date from the seventh century. They were first used in China, where the Emperor Kao Tsong, having heard the cry of a pheasant, supposed to be an auspicious sign, ordered a fan to be made shaped like the tail of that bird. According to the author of the "Etudes Asiatiques," that article had more than one singular use: on it the rich deposited the alms which they gave to the poor; the great received on it the delicacies offered to them; it was lowered before superiors as a mark of deference; the nobles carried it to court, and it served to cool them while waiting in the antechamber; it was the instrument of punishment of the schoolmaster, and at the same time was given as a reward. A fan placed on a plate of a particular form announced to the criminal of noble family his sentence, and it was at the moment in which he held out his hands to receive the fatal present that the executioner was to accomplish his work.

THE STORY OF A FORTUNE.—Sir John Crossley, during a political canvass in Halifax, publicly referred to the fact that his mother was a servant girl on small wages. The story as told, is that this girl was receiving six pounds a year, but that being very thrifty she had managed to save up a little fortune, amounting in all to forty pounds. Mr. Crossley, who married her, had nothing at all. On the forty pounds they set up a shop in which various useful things were sold, the business being entirely conducted by the wife. Having gained more money by this means, the business was gradually enlarged until finally they resolved to restrict it to a special article—carpets. Next, followed the project of a single loom; the one loom multiplied itself to a small room full. Then they bought the patent of the American Bigelow loom, and this seems to have caused their business to enlarge very rapidly. The first poor little building with which they began—a picture of it is kept in a frame—expanded like a magical tree, and now their establishments have spread into a town of their own, the buildings being connected by high bridges, passing above the streets. They employ 5000 hands, and their machinery is turned by seven steam engines representing an aggregate power of 3000 horses.

THE DAY.

Gen. Hawley believes it was "pure cussedness" that defeated him.

The eleventh anniversary of the National Deaf Mute College occurred at Washington last Wednesday. There is no college commencement that we would attend more willingly than that of a college for mutes.

We have received from the commissioner of public schools for the state his report and that of the board of education. The volume has a picture of the Rogers High School for a frontispiece. We have already given an abstract of these reports.

Messrs. Hazard and Day have issued a joint card expressing their thanks for the votes they received on Wednesday, and appealing to virtuous people to sustain virtue and send men to the General Assembly who will vote for Hazard and Day.

The Chicago Tribune is not loyal to its country. It may be loyal to the administration, but that is a matter of doubt. No sooner had the Tribune returned from the far country of independent journalism than the Postmaster General cast over its naked shoulders the purple robe of official advertising, and yet it has the effrontery to remark that "culture, ability and five years in the army" is a threadbare and valueless recommendation for an office seeker. This is a very disrespectful way to speak of the soldiers only eleven years after the war, and when there are eighty rebel officers in Congress.

A Philadelphia statistician has been figuring on the average length of steamship voyages, and reports to the Philadelphia Times that Robert Hare Powel's semi-bituminous Powelton coal enables the ships of the American line from Philadelphia to cross the ocean in over two hours less time than the Inman steamers, though the latter have a course which is ten hours shorter than the former. These Pennsylvanians are singular people. They have more of everything than anybody else, and everything they have is unrivaled in quality, and yet they find it absolutely necessary to be protected against competition.

Mr. Beecher's testimony does not sustain the charge of blackmail he made last Summer against Moulton. He says now that Moulton told him of Tilton's financial embarrassments, and showed him some two or three thousand dollar checks which friends had given Tilton. At the same time he slammed his fist on the table, and said, "That's what I call friendship!" After Moulton and Beecher separated the latter discovered that the former was fishing for some more evidences of friendship for Tilton. Beecher immediately upbraided Moulton for being so delicate, and raised $5000 for Tilton by mortgaging his house. This is a very mild kind of blackmail.

Mr. John R. Leslie of this city has been appointed a member of the commission to make a geological survey of the state. His almost excellency Rowland Hazard is another member of the commission, and it is confidently expected that the depth of the ballot deposit over this state, and the causes of the earthquake on the seventh of April will be carefully investigated. The momentous question whether the age of brass in this state preceded or followed the ages of stone and bronze ought also to receive the attention of this geological commission, as should the problem whether rocks are distributed more freely by glaciers or elections.

Green of Connecticut has been promoted; he has received another degree. He fired a hundred guns in honor of the President's Louisiana policy, and got soundly thrashed in his effort to get the governship of his state. But the guns he had loaded to be fired in his own honor had to be discharged so he fired a hundred guns yesterday in honor of the Republican victory in this state. He used to be called "One-hundred-gun Green," now he has become "Two-hundred-gun Green." He fears Grant and keeps his powder dry. This state is much obliged to him, but so far as our election is concerned he might just as well have fired his guns on the sixth as on the eighth.

CAUCUSES AND CONVENTIONS.

Entirely aside from the merits of the case and independent of the question of the justice of the bolters' cause, the election of Wednesday was one of the most marked victories ever won by bolters; it was the heaviest blow that has been struck at the caucus and convention system, and the theory of party loyalty for many a day. In Massachusetts last Fall the tyranny of a majority caused a party defeat in several instances, but in no case was any attempt made to reform the party within itself. Republicans who didn't like Talbot voted for Gaston and the enemies of Butler supported Thompson. But in this state the dissatisfied element nominated candidates of their own, gentlemen with no particular political connections and with absolutely no party machinery at their command, and no time to organize any, and they came out of the election at the head of the polls. This is a startling revelation to party managers. It shows that a majority of a majority is not a majority of a whole, and it makes bolting respectable.

The feeling that was once universal, and is still deep and wide spread, that it is discreditable to a man not to be permanently attached to some one party, and disreputable in a man to disobey the mandates of the majority of his party, this feeling is the main dependence of those shrewd managers who can find underhanded means to control a caucus or a convention, but who would never think of attempting the task of convincing the voters. Where this feeling prevails persons who are unwilling to put their political freedom into the hands of Tom, Dick and Harry stay away from the primary meetings and leave them to be managed by the three well known parties named, and the result is that Tom is sent to the legislature where he exerts his influence to give Dick a fat contract, and Harry is made county sheriff.

But when it is well understood that the nominees of the caucus must be acceptable to the members of the party at large, whether present or absent, when it is known that each candidate must stand or fall according to his own opinions and character, and can not expect to be carried into office on the strength of the regular nomination, then Tom will not be nominated to the legislature nor Harry for the shrievalty, for the simple reason that the party at large would not vote for them, and they would be ingloriously defeated. It is thus evident that occasional bolting is the only thing that will keep any party pure, and that abject obedience to the caucus is simply putting dictatorial power into the hands of professional politicians, who are seldom as conscientious as they are cunning.

But while many persons acknowledge the logic of this reasoning they can never be brought to put the thing in practice, for fear that it should throw victory into the hands of the opposite party. Many men are so constituted or have been so brought up that they feel that its bottom is kept in the universe only by the ascendancy of the party to which they belong. Should their political opponents succeed once they would hardly expect the sun to rise with any regularity, or seed time and harvest to come as before. They cling tenaciously to the hopes held out by wily partisans that a party may be reformed within itself, that is by good and meaningless resolutions and by eloquent speeches on purity and patriotism.

The only answer that can be made to these "fearful saints" is that no party is so good as it imagines itself; no party is so bad as its opponents paint it. Ward politicians and convention managers don't care a cent about resolutions and speeches so long as the party can be whipped into voting the regular ticket without scratching. They can't feel anything but a kick. They can't understand anything but defeat, and it is better that a party should be occasionally beaten than that it should be surrendered unconditionally into the hands of men who make politics a trade. Had the Republicans of Butler's district been loyal to the party that great man's henchmen would have kept ------ing him to Congress ------ ------ them part, but the party leaders will probably select a better man next year.

It is thus that a defeat may redound to the party's and country's good. Let the captains of the host understand that they must consult the wishes of the party in general and not simply a bare majority of a packed caucus, and they will find it convenient to retire from business or put up good men for the suffrage of the people. It can not be too well understood that absolute obedience to caucuses means absolute obedience to a few members of state committees, or a few shrewd manipulators of conventions.

These are the first two numbers of a new volume, the one hundred and twenty fifth of The Living Age.

The Republic.

In a carefully prepared statistical paper on the Errors of Modern Civilization, the Republic magazine for April, published at Washington, shows that the great powers are carrying larger armies today than at any former period in the world's history. It is also shown that as a direct result of war and standing armies national indebtedness has increased far beyond that of any former period. Ten governments, namely: France, Great Britain, United States, Italy, Spain, Austria, Russia, Germany, Turkey, and India, owe twenty thousand million dollars, an amount which, to be transported in gold from New York to London, would require a vessel to make over thirty voyages across the Atlantic, carrying one thousand tons of gold at each trip. And this enormous debt burden has been increased ten per cent. in the last two years.

With these national precedents before them, sub-governments—colonies, states, cities, counties and towns—have adopted the pernicious practice of borrowing money, especially in the United States, and often for purposes of questionable propriety, until government and municipal tax burdens have become matters of the gravest import.

In view of these facts, and in order to reach and strike at the fountain head, the Republic urges a general movement among the nations for the suppression of the war spirit and the inauguration of an international peace policy, and suggests the assembling of a world's peace congress in Washington in June, 1876. There appears to be no insuperable barrier to such a movement, and if once inaugurated and carried out in good faith, the result could not fail of permanent benefit to the entire world, in the advancement toward a higher and happier civilization.

LOCAL AFFAIRS.

—Dr. Gantier of New York has taken Carry's cottage on Bath road for the season.

—James Johnson of this city, a runaway from the state farm, was returned this morning by Officer Albro.

—The Newport band has been engaged by the citizens of Waltham, Mass., to go to the Lexington centennial for two days.

—Dr. Henry C. Potter of Grace church, New York, Mrs. John G. Heckscher, Prof. Fairman Rogers, and Mrs. C. F. Chickering were in town yesterday.

—The man Slavin says that he did not strike Mahony with a sling shot but with his fist and that the cause of the blow was that Mahony was stealing barrels.

—At half past ten, half past two and half past seven tomorrow Horace Waters of New York will address the Sunday School teachers and others interested at the Central Baptist church.

—Miss Proctor, of the girls' school at Aintab, Turkey, will address the ladies and children at the vestry of the United Congregational church at three o'clock tomorrow.

—The thirteen persons who were recommended as census takers by the city council went to Providence this morning for their formal appointments and instructions from Dr. Snow, who has charge of the census.

—Mr. Burton's parade has suggested to the butchers and grocers the propriety of a trade procession some time in June. We would suggest that the procession occur on the Fourth of July. It would be much more appropriate in a peaceful country than a militia parade.

—The tea party at Emmanuel church last evening was well attended. The Rogers High School orchestra furnished the music. The net profits amounted to $125. The party was under the management of the guild which is raising funds for a fair to be held during the Summer. Stereopticon views of an interesting character were exhibited.

—From one o'clock yesterday afternoon kept open house at his hall on Levin street, and his loaded tables were patronized by large numbers of friends, including prominent citizens. The Newport cornet band furnished very good music. Mr. Burton is to be congratulated on the success of his celebration.

—The spelling mania has struck Newport, and there will be a match at the Opera House next week. Lieut. Gov. Van Zandt has been invited to make the presentation speeches. Mr. Thomas Coggeshall will preside. The first prize will be an unabridged Webster's dictionary, the second, a nickel plated German student lamp, and the third and fourth prizes have not yet been decided on. The last will be presented to the person who is first spelled down.

A NOTE FROM MR. DOWNING.

To the Editor of the Daily News:—

The dispatch from Washington to the Boston Journal which you copied in your issue of yesterday has reference to a business transaction. The party with whom I had the transaction did in anger, as I have been advised, take advantage of my absence from Washington, and attach some effects of mine that I have been in the habit of removing for business purposes to and from Washington for years. My friends in Washington intervened and the effects are now on their way here. A lawsuit is involved. Though I have had losses and have made great sacrifices for principle I have the wherewith to satisfy any just claim that may be made upon me, and I hope always to have the manliness to plead and stand for my rights despite the enmity of any one who would like to injure me.

GEO. T. DOWNING.

THE LESSON OF THE ELECTION.

[From the Providence Journal.]

The result of yesterday's election will be found in our news columns. It will be a surprise to many who have ignored the sound public sentiment of the state, and who supposed that such sentiment, for want of organization, would find no effectual expression. The vote of Mr. Hazard is more than three fourths of that of the entire Republican vote of last year; he heads the list; he will go into the grand committee as the choice of the majority of the Republicans of Rhode Island. Mr. Lippitt's vote is the result of that party discipline, "regular" nomination, actual preference,—plus an alliance with the liquor interest and the using of means unrecognized by the friends of the leading candidate, and brought into the contest only, we hope, by the foreign allies of the "regular" Republican nominee, which, combined, have almost universally been unconquerable in Rhode Island. In this city, at three o'clock in the afternoon, the plurality of Hazard over Lippitt was in round numbers, one thousand. After that hour the comparative vote changed materially, as our figures will show. Those conversant with the details of the proceedings in the several wards will be able to account for this modification of the position without difficulty. At a late hour the "aged and infirm" and the element which is "scattering" and scattered until the material aid is forthcoming, came to the front in full force. Even with this reinforcement, which so strengthened the "regular" ticket, the protest of the city of Providence against the peculiar mode of political proceedings culminating in and carried on throughout the first convention in the Academy of Music, has been so clear and unmistakable that even the dullest understanding cannot misapprehend its meaning.

In this city there is no election of senator, and out of the twelve representatives, only three are chosen. These three are Democrats, and, with one exception, active Democrats, placed upon the "regular" Republican ticket, without perhaps much reluctance by the partisans of Mr. Lippitt, at the dictation and because of the imperative demands of the liquor interests. So far in this contest, this overwhelmingly Republican city has not elected a Republican member of the General Assembly, but the generous adherents of Mr. Lippitt have bestowed upon the free rum Democracy the one fourth of the vote of the city in the house of representatives. In Coventry, the same tactics of the same faction have given a Democratic senator to a town in which there was not cast a Democratic vote at the last Spring election, and have defeated the election of the two representatives. There is undoubtedly a good degree of regularity in the work and results of this kind of Republicanism, but it enures not to the election of Republicans but in giving Democratic representatives to Republican constituents.

There is, however, an aspect in which this, the largest vote in this state in fourteen years, is gratifying to the friends of honesty in politics, of sobriety in the community, of virtue in public affairs. The modes of controlling the primary meetings, the ways in which sham contesting delegates to the convention were made up, the manner of conducting the convention, and the slight regard paid to the judgment and conscience of the citizens in some of the nominations, aroused a feeling, which, though utterly undisciplined, has made itself heard at the polls. The remonstrance of the mass meeting of real Republicans, held at the Academy of Music, has been responded to in a manner which shows how impolitic as well as unjust it is to ignore the honest and deliberate convictions of the people. The election of governor and lieutenant governor is still to be held. The grand committee is to decide. The decision will depend upon the men yet to be chosen in the several towns, and in this city, where there has been no election; and—if the past is any criterion of the future—not altogether upon the position of these men as members of a party, but upon their consciences as men, and their sagacity in divining the significance of a movement unparalleled in the history of Rhode Island.

The result of yesterday's contest must be regarded as exceedingly complimentary to the eminent character and personal popularity of Messrs. Hazard and Day. Called into unsought prominence by the spontaneous voice of their Republican fellow citizens, set in the field without the advantage of organization or party machinery, and assailed by every consideration that appeals to the baser nature of men, they have nevertheless polled a Republican vote which nearly equals the whole Republican vote cast at ordinary elections in this state. These gentlemen have good reason to be proud of this large and emphatic endorsement.

RECEIPTS.

SQUASH PIES.—Three cups of milk, two cups of squash, one cup of sugar, two crackers, rolled, two eggs, lemon to taste. This makes two pies.

FLAVOR FOR FROSTING.—In frosting for cakes or pudding a little lemon juice, tartaric acid or cream tartar is a very pleasant addition to the taste, besides making the frosting much lighter.

LAMB CUTLETS.—Trim the slices free from fat, beat up the yolk of an egg with rasped bread or crackers, season with pepper or salt, and dip in the cutlets and fry in butter gently, until thoroughly done.

POTATO PUFF.—Two cups of cold mashed potatoes; stir in two tablespoonfuls of melted butter, beaten to a cream; add two well-beaten eggs, one cup of cream or milk; pour into a deep dish; bake in a quick oven.

SMALL SPONGE CAKE.—Beat well together two eggs, stir in a teacupful of powdered white sugar, and beat for five minutes; add slowly a teacupful of flour, grate half a lemon into it, and bake in scalloped tins.

BUCKWHEAT CAKES.—One quart of buckwheat, one tablespoonful of yeast, salt and cold water. Put the salt in the yeast. Pour the yeast on the buckwheat, and add enough cold water to make a thin batter. Let it rise over night, and bake on a griddle in the morning.

COLD RICE PUDDING.—Swell rice in milk till soft; well butter a shape, and stick round it raisins or French plums stewed and split open. Pour in the rice, boil twenty minutes with buttered paper under the cloth; turn out. When cold cover with custard.

FOR LUNCHEON.—A nice little dish may be made of hard-boiled eggs in the following manner: Cut the eggs in half, beat up the yolks in a mortar with a little anchovy paste and butter, pepper and salt, and refill the white of the eggs, and serve with a garnish of water-cress.

RICE PUDDING.—Boil half a pound of rice to a jelly. When cold, mix with it a pint of cream; two eggs, a little salt and nutmeg. Stir in four ounces of butter, just warmed, and add as much flour as will make batter thick enough. Fry in as little lard as possible.

GELATINE PUDDING.—Half a box of gelatine dissolved in half a pint of cold water. Beat the yolks of five eggs and three tablespoonfuls of sugar, and turn into the gelatine and water. Have ready a quart of boiling milk. Pour the mixture into the milk and stir it until it boils.

DOUGHNUTS.—One cup of sugar, one of buttermilk, one egg, one fourth of a nutmeg, one and a half teaspoonfuls saleratus, three tablespoonfuls of melted lard, with a suitable quantity of flour, will make just as good doughnuts as any editor ought to eat.

SHEEP'S TONGUE IN SAVORY JELLY.—Skin the tongues, lard them and cook them until they are quite tender, in good veal broth or any white stock. Take out the tongues, boil down the liquor to a stiff, clear jelly, and pour enough of it over them to cover them. To be eaten cold.

FRIED PORK STEAK.—Cut off the rind, and if there is enough fat on the pork to fry it, rub it with salt, sage and pepper, and fry until thoroughly done; be careful not to burn it; it should fry slow and a long time; serve the gravy as it is, or add water and a little flour.

THE CHILDREN'S PUDDING.—Quarter of a pound of suet, quarter of a pound of flour, quarter of a pound of currants, two ounces of sugar, two teaspoonfuls of molasses, juice and peel of one lemon, two tablespoonfuls of milk. Boil in mold three hours.

LIGHT RYE TEA CAKES.—One pint of sweet milk, two eggs, a tablespoonful of brown sugar and a large pinch of salt. Add enough rye flour to make it as stiff as common griddle cake batter. Bake half an hour in "gem pans." Serve hot or cold, as desired.

RAISED DOUGHNUTS.—One pint of milk, two eggs, one cup of yeast; mix with flour to make stiff batter. Let it rise several hours. Then stir in two cups of sugar, three-fourths of a cup of butter, two thirds of a teaspoonful of soda, spice and salt to taste; mold it and let it rise again.

SUBSTITUTE FOR CREAM. 1. Beat two eggs, one ounce of sugar and a small piece of butter, with a pint of warm milk; then put into hot water, and stir it one way until it acquires the consistency of cream. 2. Instead of eggs, as above, use a spoonful of arrowroot, with a little cold milk.

POOR MAN'S CAKE.—One cup of sweet milk, one cup of sugar, and one egg, a piece of butter the size of an egg, two cups of flour, two teaspoonfuls of cream of tartar, and one of soda dissolved in a little of the milk, and put in the last thing. Very light and nice. Spice to the taste. Extracts are the best.

CRANBERRY ROLL.—Stew a quart of cranberries in sufficient water to keep them from burning. Make very sweet, strain and cool. Make a paste, and when the cranberry is cold, spread it on the paste about an inch thick. Roll it and tie it close in a flannel cloth; boil two hours and serve with a sweet sauce.

SPONGE GINGERBREAD.—One cup of sour milk, one cup of molasses, half cup of butter, two eggs, and one and a half teaspoonfuls of saleratus, one tablespoonful of ginger, flour to make it thick as pound cake. Put the butter, molasses and ginger together and make them quite warm, then add the milk, flour and saleratus, and bake as soon as possible.

A RICE PUDDING. One quart rich milk, one half teacup rice, one half teacup sugar, a little salt, raisins to taste. Bake very slowly, stirring often until you wish the crust to form. Flavor with nutmeg and cinnamon, or either alone. This pudding should bake several hours with an even and moderate heat. When properly baked it is delicious.

STUFFING FOR A TURKEY OR CHICKEN.—Take some bread crumbs and turn on just hot water enough to moisten them; put in a piece of butter not melted, the size of a hen's egg, add a spoonful of pulverized sage, a teaspoonful of ground pepper and a teaspoonful of salt; there may be some of the bread crumbs that need to be chopped; then mix thoroughly and stuff your bird.

HAM CAKE.—A capital way of disposing of the remains of a ham and making an excellent dish for breakfast: Take a pound and a half of ham, fat and lean together—put it into a mortar and pound it, or pass it through a sausage machine—boil a large slice of bread in a half-pint of milk, and beat it and the ham well together—add an egg beaten up. Put the whole into a mold, and bake a rich brown.

PREPARING SMALL FISH.—Any kind of small fish may be prepared in the following manner: After being well washed and wiped, it is put in a pan with a little butter, and, sprinkled over with pepper, salt and crumbs of bread scraped from a crusty loaf, with an onion chopped small, and fried in the oven twenty minutes to half an hour.

HOMINY.—Two quarts of white corn; three half pints of white beans; two pounds of pickled pork. Wash the corn and put on to boil in water sufficient to cover it, and, as the corn swells, more water must be added, so as to keep it covered all the time it is cooking. After boiling four hours add the beans and pork, which being done, the hominy may be sent to table. Should the pork not make it sufficiently salt, more may be added. This is very nice warmed over the next day.

CREAM CANDY—MOLASSES CANDY.—To every pound of sugar add one teaspoonful of cream tartar; put in one half teacup of water and set over a slow fire. Occasionally drop some in cold water; when it hardens it is done enough; pour on some flat surface. Put in a few drops of flavoring if you like, and let it stand a few minutes; then you pull it until it is white and make into sticks. You can exercise your own ingenuity about their shape. The children pronounce it splendid! Molasses candy is made in the same way, using molasses instead of sugar and omitting the flavoring and cream tartar. This candy is improved by stirring in nuts of any variety which may be convenient.

RESULT OF THE BEECHER SCANDAL.—Assistant Pastor Halliday would not buy a newspaper with the reports of the Beecher trial. The outraged newsboy thought the reverend gentleman unfit to take care of his own money, and attempted to act as trustee of the funds. For this benevolent act the newsboy was sent to the house of refuge—the smallest victim of the Brooklyn scandal who has been thus far produced.

TETZEL'S DISCIPLES.—Three ex-priests have been sentenced to prison in Paris for selling masses for the dead which were never performed. They had established an agency, and carried on an extensive business. The exposure of the swindle has enlightened the public on the careless way in which masses for the dead are conducted.

BUSINESS NOTICES.

CARRY THE NEWS.

It is natural for people suffering with consumption, coughs, severe colds, or any other disease of the throat and lungs, to put off from day to day buying an article that they know has cured their neighbor, friend, or relative, yet they have no faith in it until it is too late. If you will go to your druggist, James H. Taylor, and get a bottle of Boschee's German Syrup, your immediate cure is as certain as you live. It has lately been introduced in this country from Germany and druggists and people everywhere are elated over its success. You can get a sample bottle for 10 cents and try it. Regular size bottle 75 cents.

Charles Lamb, Essayist, denounced all spirituous liquors as "Wet Damnation." Poor fellow; he knew whereof he spake, by sad experience, and if living, would apply the same to Alcoholic Excitants, advertised as Cure alls. But there is one Tonic and Alterative in existence—the best the world has ever known—which contains no alcohol. It is DR. WALKER'S CALIFORNIA VINEGAR BITTERS. apr4-4w

The Price of Health

Like that of liberty, is eternal vigilance. The vapor-laden air of Spring exercises a depressing influence on the vital powers. The strongest feel this devitalizing effect; the weak are prostrated by it. Everybody is more or less debilitated at this season, and the feeble instinctively seek the help of medicine. Unfortunately, the "remedy" resorted to sometimes aggravates the mischief. Raw stimulants are eminently pernicious in such cases, and drastic cathartics about as bad. The vital principle needs succor and support and a reinforcing preparation that will tone and renew, while it regulates and purifies the system, is the medicine that nature demands. All the medicinal elements required for such emergencies are combined in Hostetter's Stomach Bitters, the purest and most efficacious vegetable elixir that the world has ever known. It is a mild stimulant, a powerful tonic, an unequaled appetizer, an absolute specific for diseased digestion, a wonderful nervine, a moderate cathartic, a remedy for liver complaints and periodic fevers, a cure for constipation, a specific for rheumatism, of essential use in all ailments to which the feebler sex are subject, and as a general household medicine unequaled and unapproached. These are the properties which have made Hostetter's Bitters famous everywhere. See to it, however, that you have the true article, for the land is infested with swarms of local bitters, made from condemned liquors and worthless drugs, which greedy wretches who speculate on human life recommend as panaceas for every ill that flesh is heir to. Beware of the charlatans and their poisons.

Kidney disease, dropsy and all diseases of the urinary organs can be cured by the use of Hunt's Remedy. Thousands that have been given up by their physicians to die have been speedily cured by the use of Hunt's remedy. Send to any address, securely packed, on receipt of one dollar and twenty-five cents. Send stamp for illustrated pamphlet to Wm. E. Clarke, sole proprietor, Providence, R. I.

☞ The appointments of the nursery are incomplete without one bottle or more of the Milk of Magnesia, to be held in reserve in case of sudden attacks of colics and diarrhoeas among its infantile occupants. No other form of Magnesia is safe in such visitations. Caswell, Hazard & Co., Agents. apr1-1m

☞ The fatal diarrhoea, which carries off such numbers of the infant population of cities, every summer and autumn, has its origin in the excessive secretion of acid in the stomach, stimulated by extreme atmospheric heat. Milk of Magnesia is the only remedy capable of neutralizing it and removing its morbid results. Caswell, Hazard & Co., Agents. apr1-1m

☞ To Mothers.—As the season is approaching in which the least exposure of infants to atmospheric changes induces obstinate and debilitating diarrhoeas, that the usual medicines are incapable of remedying, it behooves parents to be supplied with the Milk of Magnesia, which never fails to afford instant relief in such attacks. GENERAL ASSEMBLY.

ADJOURNED SESSION AT PROVIDENCE.

THURSDAY, April 8.

Senate.

The senate met at 11 o'clock, Lieut. Gov. Van Zandt in the chair.

M. Blake, from the committee on finance, reported favorably upon an act making additional appropriations for the support of the state government for the year ending April 30th, 1875, which was passed to be engrossed. The amounts and the purposes for which appropriations are as follows:

For payment of mileage of members of the General Assembly	$3,000
For payment of officers (sheriff and deputies) for attendance on the General Assembly	300
For payment of clerks of senate and house of representatives	500
For payment of pages in senate and house	250
For payment of clerks of all courts except those of Providence and Bristol counties	500
For witnesses in supreme court and court of common pleas	3,000
For officers in justice courts	3,000
For witnesses in do	1,000
For trial justices	800
For public printing	2,000
For jails and jailors	300
	$18,850

The chair announced the reception of a communication from the Franklin Society, nominating the Hon. Zachariah Allen, of Providence, and Dr. W. E. Channing of Middletown, as members of the commission to be appointed to make arrangements for a geological survey of the state. The lieutenant governor, as acting governor in the absence of Governor Howard, then announced the constitution of the commission as follows:

The Hon. Zachariah Allen, of Providence; Dr. Wm. F. Channing, of Providence; Prof. Geo. I. Chace, of Providence; John B. Leslie, of Newport; The Hon. Rowland Hazard, of South Kingstown.

Mr. Cook, from the committee on finance, reported without recommendation, an act amending chapter 245 of the statutes, "of salaries," fixing a salary of $400 for the sheriff of Bristol county.

This act originally included Washington and Kent counties. The house struck out Kent county, and Mr. Bodfish now moved that it be reinstated.

Mr. Hopkins moved an indefinite postponement.

The motion to indefinitely postpone was put and negatived.

Mr. Bodfish's amendment was ruled out of order, as covering a matter already acted on by the senate.

The act was then put upon its passage, and the senate voted to concur with the amendment made by the house, the vote standing—yeas, 17; nays, 10; and the act was sent to the engrossing committee.

The following business from the house, was received and thus disposed of.

Petition of Susan E. Magner for leave to sell real estate in Newport. Referred to the committee on the judiciary.

Act incorporating Washington Lodge, No. 4, Central Falls, Knights of Pythias. Referred to the committee on corporations.

Act incorporating Saseonnet Lodge, No. 30, I. O. O. F., in Little Compton. Referred to the committee on education.

The militia bill was taken up, and the clerk began the reading at 12.25, each section being understood to stand as part of the bill, unless objection should be made.

On motion of Mr. Turner the further consideration of the bill was postponed to Tuesday next.

The senate then adjourned to Friday morning at 11 o'clock.

House.

The house met as usual, the speaker in the chair.

Acts in amendment of chapter 398, "of town clerks," was the first in order, but was allowed to lie on the table to make way for the special order, the subject of tax exemption. The question was upon Mr. Daniels' amendment to strike out sundry lines in the bill reported by the committee, and have exempted only state and United States property, and that of the Narragansett tribe of Indians.

A vote was taken and the amendment lost.

The question then recurred to the bill as reported.

The bill was lost by a vote of 27 to 29.

Report of the commission to examine the reservoirs and mill dams of the state was received, and a resolution to continue the commission to the next session, passed in concurrence.

Adjourned till tomorrow at 10 o'clock.

MANUFACTURE OF RAZOR BLADES.—The celebrated razor blades produced by Rodgers, of Sheffield, and which go to all parts of the civilized world, are forged out of bars of the very best highly carbonated cast-steel, tilted to about half an inch in breadth, and of a thickness sufficient for the back of the razor. The blade is first moulded at the end of the porterod, and then forged, and the edge being brought out, th concave surface is formed by working the side on the rounded edge of the anvil; it is then cut off, and the tang is either drawn out from the same material as the blade, or if this be of superior quality, a piece of iron is welded to it. The steel used is of excellent quality, so as to undergo the beating necessary to produce the thinner part, while the back is left thick. Some of the workmen are so expert in forging the blade that they will produce on the anvil an edge so sharp and even that it can be used for shaving after being whetted. After forging, the blade is smithed, or beaten on an anvil, to render the metal as compact as possible. The blade is also slightly ground, or scorched, after the forging, on a coarse, dry grindstone, to bring it to the shape required, and remove the black scale, or coating. The blade is next drilled for the joint, and stamped with the name; then hardened and tempered, and ground on a whetstone of from four to eight inches in diameter.

LONG WORDS.—"Rob," said Tom, "which is the most dangerous word to pronounce in the English language?"

"Don't know," said Rob, "unless it's a swearing word."

"Pooh!" said Tom, "it's *stumbled*, because you are sure to get a tumble between the first and last letter."

"Ha! ha!" said Rob. "Now I've one for you. I found it one day in the paper. Which is the longest word in the English language?"

"Valetudinarianism," said Tom promptly.

"No, sir; it's *smiles*, because there's a whole mile between the first and last letter."

"Ho! ho!" cried Tom, "that's nothing. I know a word that has over three miles between its beginning and ending."

"What's that?" asked Rob, faintly.

"*Beleaguered*," said Tom.—[From "Jack-in-the-Pulpit," St. Nicholas for April.

Kidney Complaint.

Probably there is no complaint that afflicts the human system, which is so little understood at the present time, as some of the varied forms of Kidney Complaints.

There is no disease which causes such acute pain or is more alarming in its results than when the kidneys fail to secrete from the blood the uric acid and other poisonous substances, which the blood accumulates in its circulation through the system.

If from any cause the kidneys fail to perform the functions devolving upon them, the cumulations are taken up by the absorbents and the whole system thrown into a state of disease, causing great pain and suffering, and very often immediate death. Hence the importance of keeping the kidneys and blood in a healthy condition, through which all the impurities of the body must pass.

PAIN IN THE BACK.

There is no remedy known to medical science which has proved itself more valuable in cases of Kidney Complaints than VEGETINE. It acts directly upon the secretions, cleanses and purifies the blood, and restores the whole system to healthy action.

The following extraordinary cures of great sufferers who had been given up by the best physicians as hopeless cases, will speak for themselves and should challenge the most profound attention of the medical faculty, as well as of those who are suffering from Kidney Complaint.

THE BEST MEDICINE.

EAST MARSHFIELD, Aug. 22, 1870.

MR. STEVENS: Dear Sir—I am seventy-one years of age; have suffered many years with Kidney Complaint, weakness in my back and stomach. I was induced by friends to try your VEGETINE, and I think it the best medicine for weakness of the Kidneys I ever used. I have tried many remedies for this complaint, and never found so much relief as from the VEGETINE. It strengthens and invigorates the whole system. Many of my acquaintances have taken it, and I believe it to be good for all the complaints for which it is recommended. Yours truly,

JOSIAH H. SHERMAN.

Pronounced Incurable.

BOSTON, May 30, 1871.

H. R. STEVENS, Esq.: Dear Sir—I have been badly afflicted with Kidney Complaint for ten years; have suffered great pain in my back, hips and side, with great difficult in passing urine, which was often, and in very small quantities, frequently accompanied with blood and excruciating pain.

I have faithfully tried most of the proper remedies recommended for my complaint; I have been under the treatment of some of the most skillful physicians in Boston, all of whom pronounced my case incurable. This was my condition when I was advised by a friend to try the VEGETINE, and I could see the good effects from the first dose I took, and from that moment I kept on improving until I was entirely cured, taking in all, I should think, about six bottles.

It is indeed a valuable medicine and if I should be afflicted again in the same way, I would give a dollar a dose, if I could not get it without.

Respectfully, J. M. GILE.
261 Third Street, South Boston.

NEARLY BLIND.

H. R. STEVENS: Dear Sir—In expressing my thanks to you for benefits derived from the use of VEGETINE, and to benefit others, I will state:—

When eight or nine years old I was afflicted with Scrofula, which made its appearance in my eyes, face and head, and I was very nearly blind for two years. All kinds of operations were performed on my eyes, and all to no good result. Finally the disease principally settled in my body, limbs and feet, and at times in an aggravated way.

Last Summer I was, from some cause, weak in my spine and kidneys, and it was at times very hard to retain the urine. Seeing your advertisement in the Commercial, I bought a bottle of VEGETINE, and commenced using according to directions. In two or three days I obtained great relief. After using four or five bottles I noticed it had a wonderful effect on the rough, scaly blotches on my body and legs. I still used VEGETINE and the humorous sores one after another disappeared until they were all gone, and I attribute the cure of the two diseases to VEGETINE, and nothing else.

If I am ever affected with anything of the kind again I shall try VEGETINE as the only reliable remedy. Once more accept my thanks, and believe me to be, Very respectfully, AUSTIN PARROTT.

Dec. 1, 1872. No. 35 Gano St., Cincinnati, Ohio.

Diseases of the Kidneys, Bladder, etc., are always unpleasant, and at times they become the most distressing and dangerous diseases that can affect the human system. Most diseases of the Kidneys arise from impurities in the blood, causing humors which settle on these parts. VEGETINE excels any known remedy in the whole world for cleansing and purifying the blood, thereby causing a healthy action to all the organs of the body.

Vegetine is Sold by all Druggists.

Testimony of Captain Hammond of Newport.

W. H. CARPENTER, M. D.,—DEAR SIR:—Allow me to thank you, through the NEWS and JOURNAL, for the great benefits conferred upon me by your treatment for Chronic Catarrh. Five weeks ago, when I consulted you, I was prostrated and nearly worn out with that terrible disease. Under your treatment I began to improve at once, and in two weeks was able to resume my employment, and have continued to improve up to this time. Yours Sincerely,

STATEMENT OF MR. RICHARD STAFFORD.

NEWPORT, Jan. 7, 1875.

W. H. CARPENTER, M. D.—Dear Sir:—Having received great benefit from your treatment of my case of deafness and discharges from my ears, I beg to offer you my sincere and heartfelt thanks, hoping at the same time this correspondence may be of use to you professionally. To the public I would say, (if you decide to put this in print,) that as the result of Scarlet Fever, I was troubled for the whole of twenty years with a filthy, disgusting discharge from both ears, which made me grow deafer and deafer, and caused a polypus to grow in one ear, and I received no relief until I applied to Dr. C., for a remedy. I at once placed myself under his care, and through his skillful treatment I have completely recovered from the unpleasant and deplorable condition I was in. My faith in Dr. C's skill is unbounded as I considered my case about incurable before applying to him.

RICHARD STAFFORD, No. 8 Cross street.

CERTIFICATE OF MR. JOHN CASWELL,

NEWPORT, R. I., Dec. 12, 1874.

TO THE EDITOR OF NEWS:—I wish to recommend Dr. Carpenter's treatment to such of the community as have Scrofula. I inherited it, and it has always run in my blood, and last Fall it became terrible, injuring my health, and attacking my head and face particularly and so disfigured me that a neighbor that met me did not know me until I spoke to him. I applied to Dr. Carpenter, at the Perry House, and his medicines have met with gratifying success. My health is now good, have very little trouble with the humor, face looks natural, and I hope with a little more treatment, to eradicate the poisonous humor from my system entirely. I reside in Middletown.

JOHN CASWELL.

Catarrh and Polypus.

Home Testimony.

NEWPORT, R. I., Nov. 6th, 1874.

This is to proclaim what Dr. Carpenter has done for me. I suffered from Catarrh 40 years, and the last 10 years my nasal passages were filled with Polypus. I employed physicians from time to time, and two years ago, went to Boston, and was doctored there three months, and left off worse than I began, and I was almost discouraged. But I felt that I must do something, for I was obliged to keep my mouth open and my health was becoming impaired. So I went to Fall River last Spring, and placed myself under the care of Dr. Carpenter. His treatment proved highly satisfactory. He removed and cured the Polypus, I can breathe naturally, the Catarrh troubles me very little and altogether I am comfortable and as well as a man 60 years of age, can expect to be, and I hope this testimony may be the means of securing relief to other sufferers. I reside in Middletown.

ASA PECKHAM.

Permanent Cures of Scrofulous Catarrh.

Testimony of a Citizen of Newport.

My son and daughter were sufferers from Scrofulous Catarrh from birth, and with discharges, swellings upon their necks; and an utter inability to breathe through the nose, they were uncomfortable enough, when we placed them under the care of Dr. Carpenter in 1865. His remedies cured them in a few months and they remain well to this day. I publish this with the hope it may be the means of securing relief to others. B. B. BREWSTER,

(From Fall River News.)

FALL RIVER, Jan. 22, 1874.

W. H. CARPENTER, M. D.,—My Dear Sir:—Allow me thus publicly to express my gratitude for the great benefit conferred upon me by your treatment. I was afflicted for years with Catarrh which had become a constant torment to me, the irritation and inflammation having increased until ulceration was the consequence. Your treatment has been attended with the happiest results. I am now comfortable, my head feels well, and I believe myself cured of that terrible disease. JOHN BEATTIE, JR.

Mr. Beattie is of the well-known Firm of Wm. & J. Beattie, Jr., Granite Dealers and Contractors, 2 Quarry street.

A CARD FROM WALTER SCOTT, Esq.,

EDITOR OF BORDER CITY HERALD, OF FALL RIVER.

I have known Dr. Carpenter since he commenced practice in this city, and I am satisfied that he is a skillful physician and has been successful in the treatment of a great majority of the cases in which he has been consulted. Of my own personal knowledge, I have reason to testify that quite a number of the individuals cured were nearly hopeless in their condition; some about blind, others deaf, and others laboring under Bronchial and Catarrhal affections, and I have seen the same persons restored under his treatment to their normal state of health. I therefore, knowing these things, without hesitation recommend him to persons suffering from the maladies he has made his special study for years. WALTER SCOTT.

FALL RIVER, May 28, 1874.

To my Friends and the Public:

It affords me great satisfaction to be able to testify to the success of Dr. Carpenter in the treatment of my Ears, which were a source of trouble and annoyance to me more than twenty years. Dr. C.'s treatment restored them, and they have been well several months. I have great confidence in Dr. Carpenter's skill and success in practice, and do not hesitate to recommend him. A. D. WHITE,

Firm of Dennis White & Son,
Troy Building, Pleasant St.

Catarrh and Blindness.

(From Fall River News.)

Testimony of Mrs. J. Clumb, of Fall River.

I was diseased with an aggravated form of Catarrh ten years, and in consequence my eyes became affected in December last, and grew worse until I could not go about without being led. Was under the care of several doctors and at the Boston Infirmary, but got no help until I consulted Dr. Carpenter at the Mount Hope House, April 24. Under his treatment I began to improve immediately, and now I consider myself cured. I think everyone should know there is a physician in Fall River who can cure such diseases. As I am not very well known in this city, I am at liberty to refer to W. Scott, Esq., No. 1 Ferry street, who saw me when I was in a state of blindness and since I was cured. MRS. JEREMIAH CLUMB.

GOSSAMER WATER-PROOF CAPE.

THE MANUFACTURERS claim for the above new style of cape the following:

That they are perfectly water-proof.

That, if worn in the rain twenty four hours, they will not absorb any moisture, while the old style will nearly double its weight, and not keep the wearer dry, either.

That, when rolled-up, they are only seven inches long, and three inches in diameter, and can be carried in the pocket, while the old style is as large and cumbersome as a woolen shawl.

That, being so light weight, and having no warmth, they are welcomed by all ladies for warm-weather use, or to throw over a winter cloak in cold weather.

That they are not affected by either cold or heat, neither will they become soft and useless with warm damp weather.

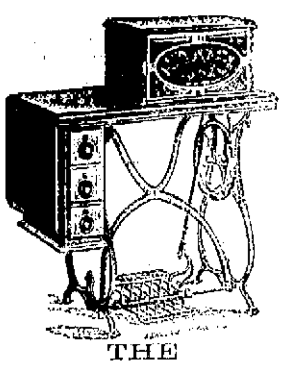

That all who have used the Gossamer Capes have expressed themselves perfectly satisfied with them.

That a lady, who has a Gossamer in her pocket, can leave the troublesome umbrella at home, and if the rain comes before she reaches shelter, with the Cape thrown over her, and the Hood over the bonnet, she is far better protected than she could be with the umbrella.
